

Reformeer Creative

Your church, in its own style.

We design your house style and your website with you, and build them right into Reformeer. After that, you keep everything up yourselves in Office.

For illustration: GK Rietvallei, Pretoria.

Your first visitor comes on a phone.

Before someone walks in on a Sunday, they look you up. What they see is your website: your service times, your address, and what your church looks like.

It looks like you

Your own colours, fonts and shape, on the website and on every letter.

It stays up to date

Services, news and events come from Office. Nobody types them twice.

You hold the keys

We set it up. After that, you change all of it yourselves in Office.

How Reformeer Creative works

We work with your council or a small team from the church. You approve each step before we go on.

1 We talk

We get to know your church: your building, your people, your history and what you want to say. We look at what you have already.

2 We design the house style

Colours, fonts, a shape and the photos. We set them out in a brand guide.

3 You approve it

You see the house style on your own letters and pages before we build the website.

4 We build the website

In Reformeer, with your own words and photos. Together we choose the layout that suits your church.

5 We hand it over

We connect your address, and we show your team how to keep it all up in Office.

6 You keep it up

The work is yours. You change the words, the photos and the pages yourselves.

The example: GK Rietvallei

The pages after this one show what the work looks like, with one church as the example: GK Rietvallei's house style and website, as they are set up on Reformeer. The church works in Afrikaans, so its pages are in Afrikaans. Your church gets its own style, not this one.

Voorbeeldbrief

Geagte leser,

Hierdie is 'n voorbeeldbrief. Dit wys hoe jou briefhoof lyk op die briewe wat Reformeer vir GK Rietvallei druk: die lidmaatskapbrief, die oorplasingsversoek, die besoekersvorm en die bedieningsverslag.

Die band bo-aan wys jou logo, jou naam en die reëls wat jy gekies het. Die opskrifte gebruik jou lettertipe vir opskrifte, en hierdie teks gebruik jou lettertipe vir teks. Die reël onderaan die bladsy is jou voetreël.

Om die briefhoof te verander, maak Instellings > Huisstyl oop. Stoor die huisstyl en druk dan hierdie brief weer.

Vriendelike groete,

Die scriba

Namens die kerkraad

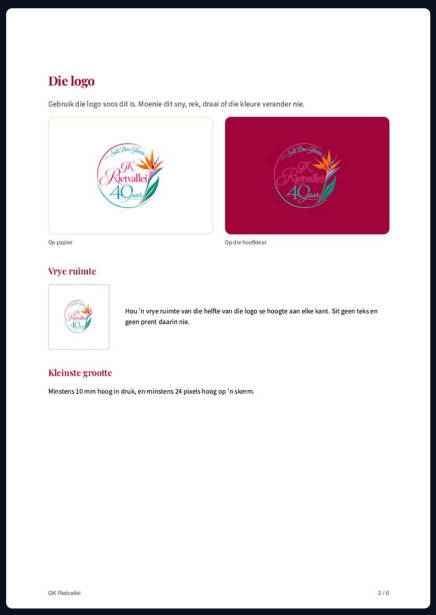

GK Rietvallei

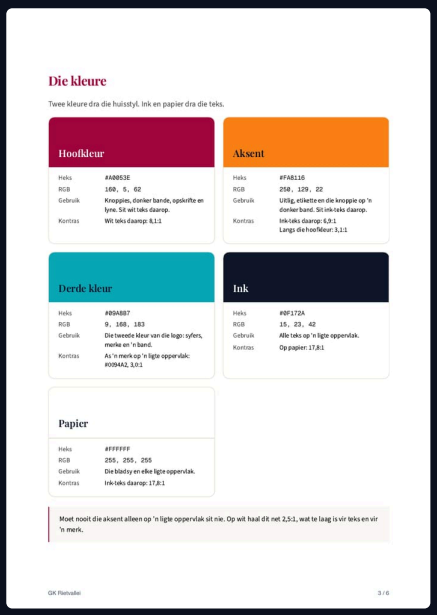

GK Rietvallei 1 / 1

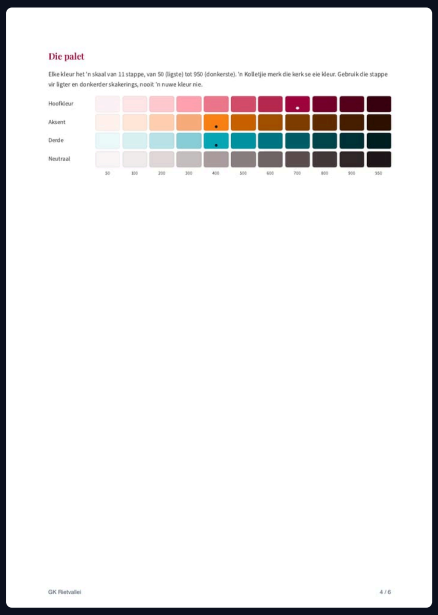

A brand guide for anyone who designs for you.

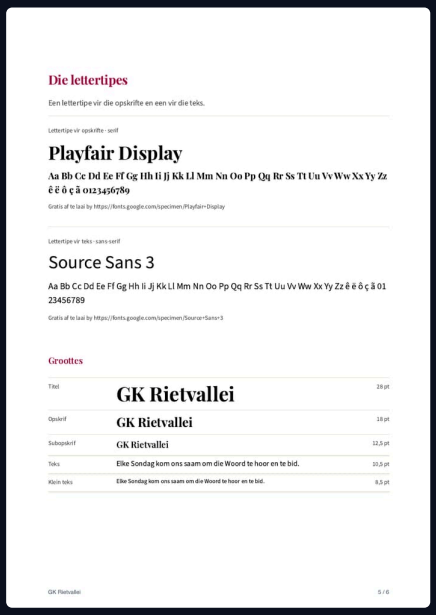

Reformeer makes the guide from the church's house style. The church can give it to anyone who designs for it.

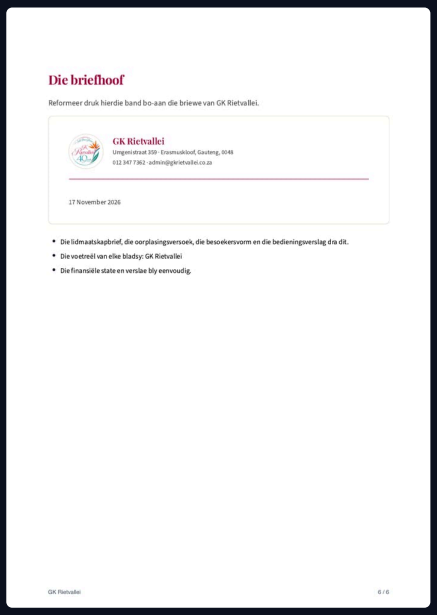

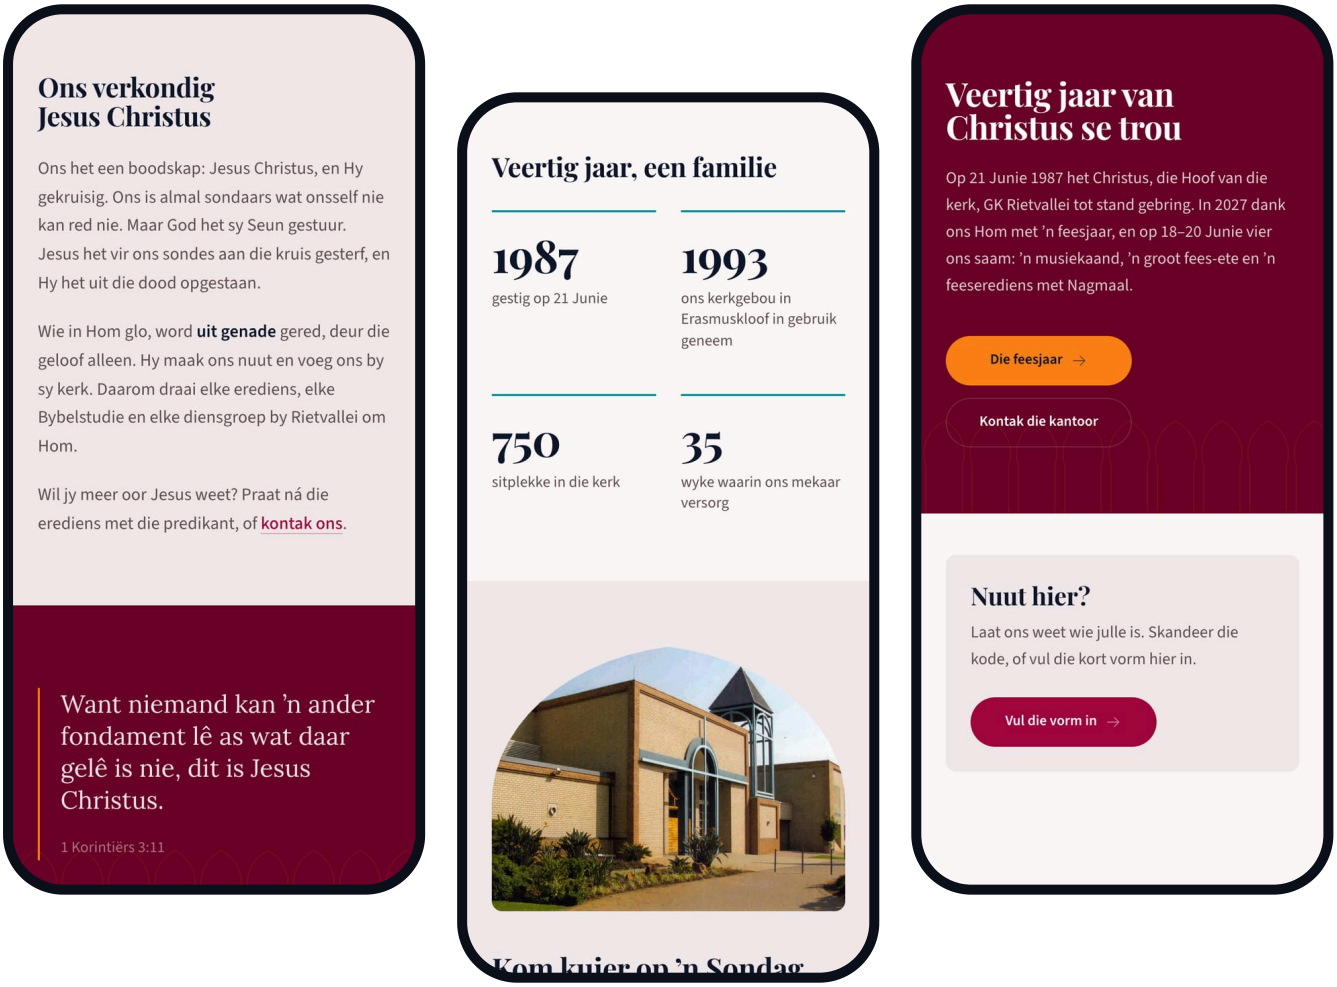

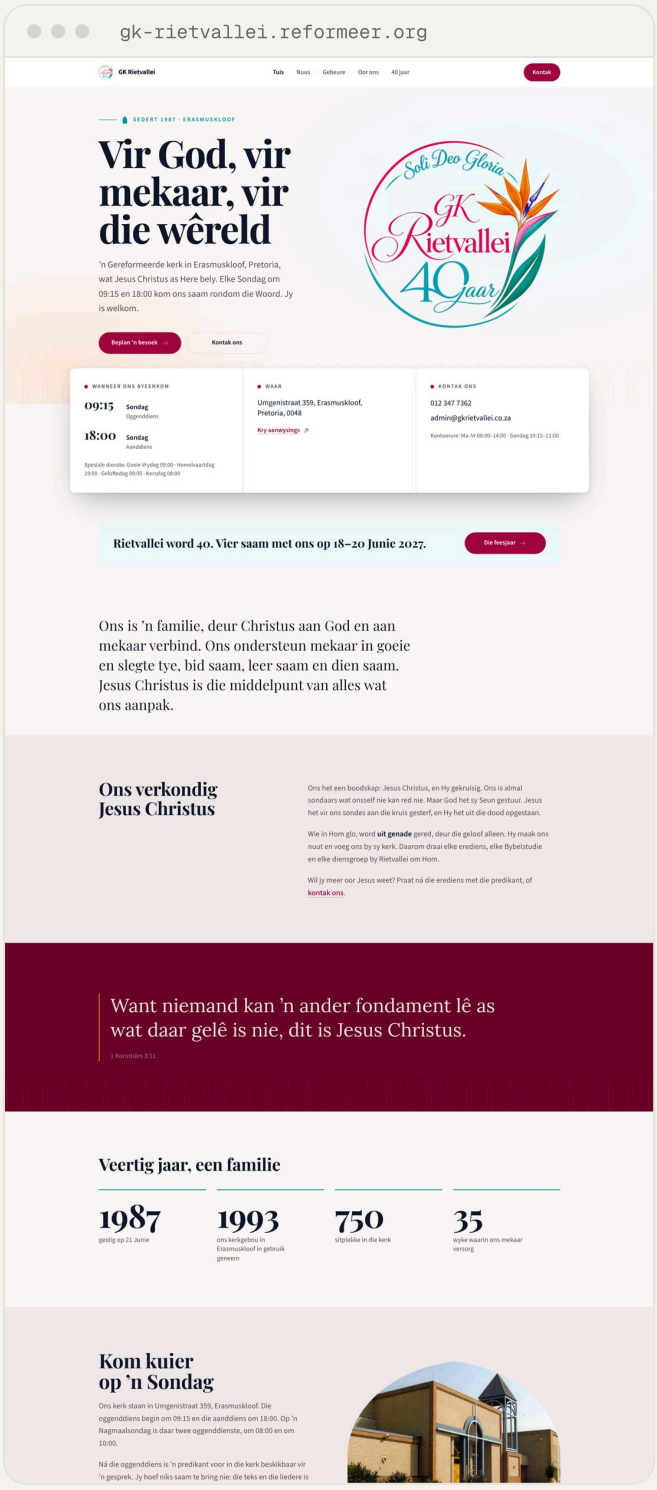

Rietvallei's website, on a phone.

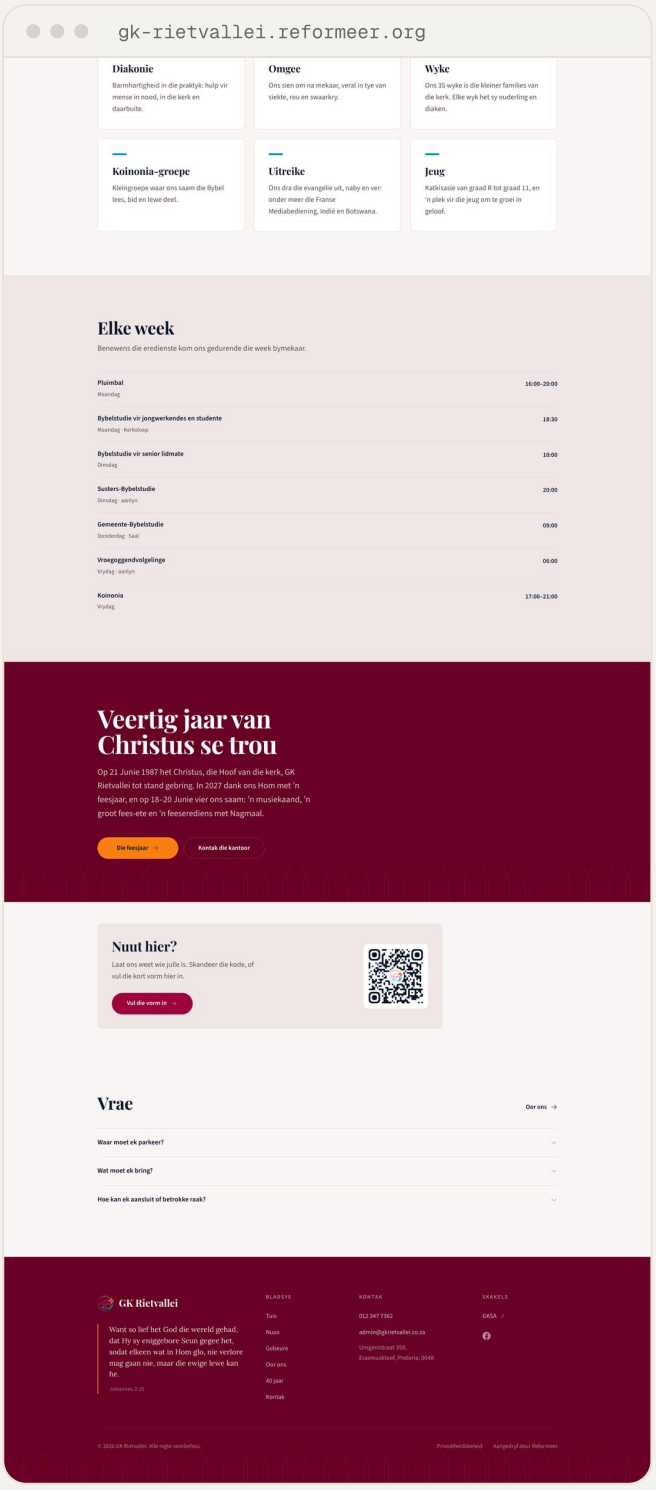

Most visitors come on a phone. Every page of the site fits it.

Rietvallei's whole home page.

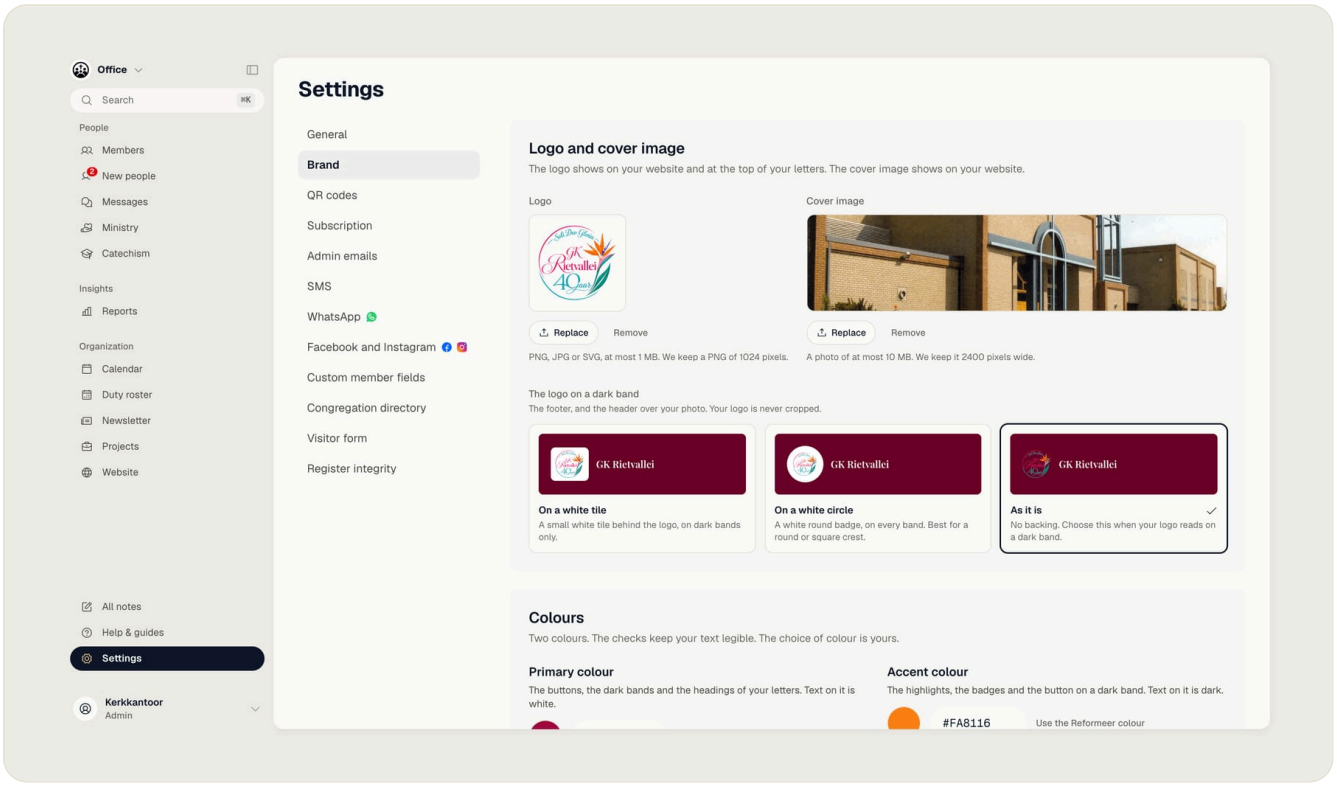

Service times, news and events come from Office. The church writes the rest itself.

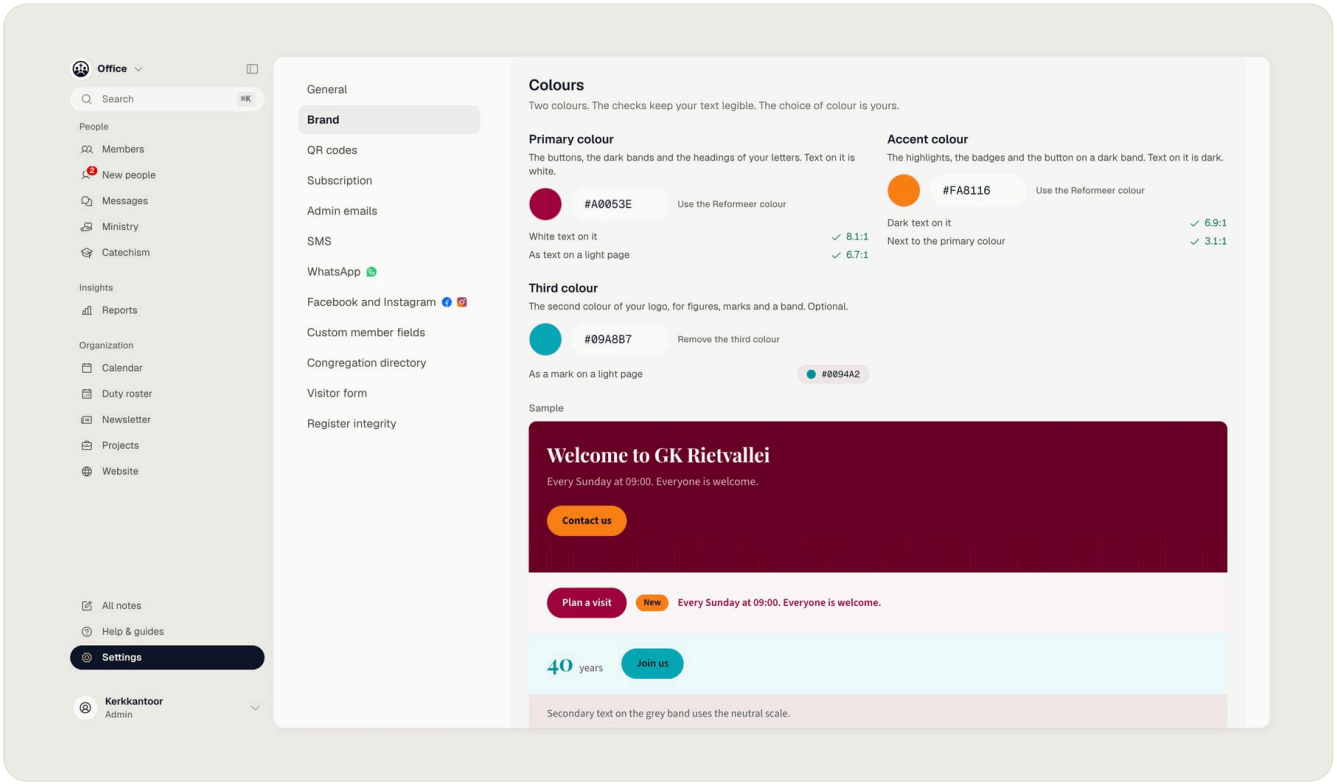

We set it up. Then it is yours.

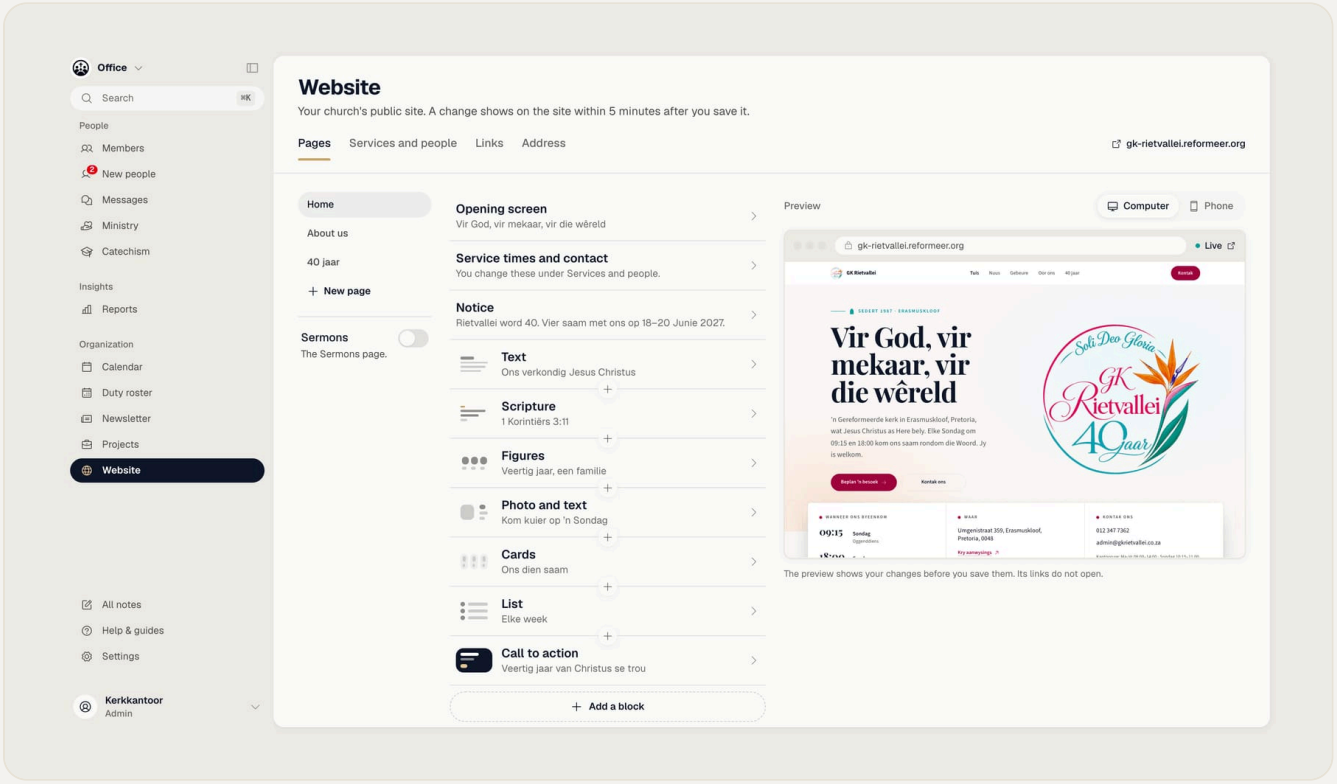

Reformeer Creative sets up Rietvallei's house style in Office. After that, the church manages it fully itself: the logo, the colours, the fonts and the shape, in Office > Settings > Brand.

Rietvallei keeps its website up itself.

Office > Website, with the preview beside the page. The church changes the words, the photos and the pages itself, and a change is on the site within five minutes.

One system, not one more.

Reformeer Creative does not build a website beside your system. We build it in Reformeer, so all that you do in Office shows in the right place by itself.

One house style, everywhere

The website, the letters, the reports and the brand guide all read the same colours, fonts and logo.

Services, news and events

You type them once in Office. The website shows them at once, and nobody types them again.

Visitors

The visitor form on the website sends a new visitor to Office, where the elders follow up.

Giving

The website shows your bank details, and a QR code when you take gifts online.

Your own address

The website works on your own domain, or on an address at reformeer.org.

You keep it up

You change the words, the photos and the pages yourselves in Office, with a preview beside the page.

What you get

- ✓ A brand guide for your church
- ✓ The house style in Office, on every letter and report
- ✓ Your website, with the layout that suits your church
- ✓ Your own address, connected
- ✓ Training for your team in Office

What it costs

Reformeer Creative is a service of its own, on quote. Each church is different, so we talk first. You get the quote before we start.

> **Reformeer Creative is for churches on Reformeer: a subscription to Reformeer with a website is a requirement.**
