

Built for Reformed polity

For the church that keeps **reforming.**

For URCNA, OPC, PCA, FRCNA, RPCNA and other confessional churches. Member registers, elder-led wards, double-entry accounting, and an AI that knows your confessions and synod records.

SUPPORTS

Church management software built for Reformed polity.

One platform. Three applications.

~2,500+ confessional Reformed congregations share one polity: the Church Order of Dort and the Westminster Standards. Generic, Baptist-shaped church software doesn't serve it. Reformeer is three connected apps on one Reformed Intelligence layer: one platform, one login, no annual licence.

Built with confessional Reformed churches.

Reformeer is shaped by how Reformed polity actually works: household registers, elder-led wards, deacon-managed funds, confessional membership.

Your whole congregation, in a register that makes sense.

Every member, family and ward in one register: baptism, profession of faith, office-bearers, roles and your own fields.

- Complete member register**
 Baptism, profession of faith, marriage, death, or any other field your church needs, per member and family.
- Wards on a map**
 See who lives where; group wards geographically and re-zone with drag-and-drop.
- Office-bearer assignments**
 Link elders and deacons to wards and families; each sees only their own ward.
- Family & household grouping**
 Members tied into families and households automatically.
- 6-role RBAC + POPIA**
 Admin · Elder · Deacon · Pastor · Finance · Member, with consent tracking and an audit trail.

What councils are saying.

“Gereformeerde Kerk Bloenburg recently moved over to Reformeer to simplify our congregation's administration. The migration from our previous system was simple and accurate, without a single member record falling through the cracks. The platform is exceptionally user-friendly and functional. Good ad-ministration contributes to good ministry, and for that we are very grateful to Reformeer!”

Dirk Meijer

GK Bloenburg

“Reformeer brings administration, financial management, pastoral care and communication together in one powerful platform, available in both Afrikaans and English.”

Deon Venter

Scribe, GK Rietvallei

“The support has been exceptional. The team walks the system through with our office staff until every workflow lands, and they shape the program around what our church actually needs.”
